

Choosing a New Health Insurance Provider

Center For Primary Care is providing the following information to our patients who wish to continue seeing a CPC physician but may no longer be able to because of a change in their health insurance benefits.

As you know, CPC has a history of accepting virtually all health insurance plans available in the Augusta area. We have done this intentionally so our patients never have to switch doctors just because their employee health benefits change. We hope to be able to continue this policy, but realistically, CPC may not always be able to accept every insurance plan available to area residents.

If at any time CPC no longer accepts your health insurance, you will have to decide whether to stay with your current insurance and choose a different physician from your plan's network of providers; keep your current insurance but pay higher "out of network" fees so that you can continue seeing your CPC physician; or switch to one of the almost 700 other insurances CPC is affiliated with.

We hope you will choose to continue seeing your CPC physician. If you do, to avoid paying higher "out of network" fees, you will need to choose a different insurance provider. Knowing how complicated insurance can be and how stressful it is to switch insurance plans, we offer the following guidelines to help you through this process.

If your employer provides your health insurance:

- Ask the Benefits Coordinator at your company if employees have more than one health insurance provider to choose from.
- If your employer offers a choice, determine which provider would best meet your healthcare needs, and select that provider during the "open enrollment" period at your workplace (traditionally held in September or October).
- If your company is affiliated with only *one* health insurance provider, ask your Benefits Coordinator to consider offering more than one choice of insurance plans so that you and your coworkers never have to change doctors unless you want to.

Please remember that if you select an insurance plan not affiliated with CPC, you can continue to see your CPC physician. However, by choosing an out-of-network doctor, you will likely have higher out-of-pocket expenses.

CPC accepts major insurance plans, including Blue Cross/Blue Shield of both Georgia and South Carolina, Aetna, Cigna, Tricare, Mail Handlers, and Medicare, as well as *hundreds* of smaller insurance plans, all of which are listed alphabetically on the following pages.
